Number 873

"How do you find anything in here? - A mugger giving my purse back."

Charm School

At one of the last all girl schools in Dallas years ago, the instructor in a "Charm Course" was urging her students to give their escorts every chance to be gallant. She said, "Remain seated in the truck until he has had time to step around and open the door for you."

Then, returning to reality, she added, "But, if the man is in the restaurant ordering his steak, don't wait any longer."

Scientist

A famous scientist developed a formula to bring statues to life. He went to a local park to try it out on a statue of Gen. Ulysses Grant. After the application, Gen. Grant began to move and soon was completely alive. The scientist asked, "What's the first thing you'll do, General?"

The General answered while drawing his pistol "I'm going to kill about a million pigeons!"

Skipping Class

A teacher was scolding a teenager in the hall. "Do you mind telling me whose class you're cutting this time?"

"Like," the young teen replied, "uh, see, okay, like it's like I really don't like think like that's really important, y'know, like because I'm y'know, like I don't like get anything out of it."

"It's English class, isn't it?" replied the smiling teacher.

Experiment

Dr. Boudreaux was performing a science experiment on a common insect, the flea. He proceeded to carefully remove one leg from the flea on which he was working. Then he shouted, "Jump!", and the flea jumped. He recorded his findings as such, "flea can jump with one leg removed."

-NOTICE-

Everyone at Grand General wishes to thank you for your business by providing the "Grand Laffs" publication. If you do not wish to receive "Grand Laffs," please call, fax or e-mail us and we will honor your request.

Then he carefully removed a second leg and said, "Jump!" Again the flea jumped with no problem and he recorded the findings. He continued the experiment one leg at a time until all the legs had been removed. The flea, now legless, sat motionless when ordered to jump.

"Hmmm, very interesting," Dr. Boudreaux thought. Then he recorded his findings, "When all the legs have been removed from a flea, he can't hear anything."

Stalled Car

A man's car stalled on a country road. When he got out to fix it, a cow came along and stopped beside him. "Your trouble is probably in the carburetor," said the cow. Startled, the man jumped back and ran down the road until he met a farmer. He told the farmer his story. "Was it a large red cow with a brown spot over the right eye?" asked the farmer.

"Yes, yes," the man replied.

"Oh! I would not listen to Bessie," said the farmer. "She doesn't know anything about cars."
